We are your full service Debt Recovery Firm

- Phillips & Burns, LLC. is a full service Collection Agency that offers competitive recovery rates for all types of debt, including: Credit Cards, Lines of Credit, Consumer Loans, Retail Accounts, Auto Deficiencies, and NSF Checks.
- We represent our clients on a contingency basis, which means that our clients are not charged unless we are successful in collecting the account.
- As a full service collection agency, we offer the option of reporting all delinquent accounts to the credit bureaus for our clients at no additional cost.
- Our specialists are trained in every area of collections, thus better enabling us to handle all of your collection needs.
- For those older debt portfolios, we have a skip tracing staff dedicated only to skip tracing. They are 2nd to none with debtor contact and location/information discovery.

- A. More accurate location information increases our letter exposure to more debtors.
- B. More accurate phone numbers translate into a higher contact ratio, and ultimately a much higher liquidation success ratio.
- C. This information helps ensure every account is worked to its maximum. No more collection specialists skipping over the accounts that may take more time due to the additional skip trace time.
- D. Additionally, we boast one of the most proficient and disciplined collections teams in the industry.

- We have liquidated most portfolios at more than double the expected rate. More importantly, this gives us a significant edge with the more difficult, and aged portfolios. Our ability enables companies who would normally sell their older portfolios to reconsider and place them here for collection first.

There is no substitute for hiring only the most experienced and talented lawyers & collection professionals in the industry. Additionally, we give training that will actually elevate this "already elite" collections employee to new levels of success. It is for these reasons alone our clients continue coming back to us.
